

# **GreenLeaf PowerCell 10 Home Battery - Technical Specification**

The PowerCell 10 is a lithium iron phosphate (LiFePO<sub>4</sub>) home battery produced by GreenLeaf Energy.

It has a nominal capacity of 10 kilowatt-hours and a usable capacity of 9.2 kilowatt-hours.

The PowerCell 10 delivers a maximum continuous power of 5 kilowatts.

Its round-trip efficiency is 94 percent.

GreenLeaf provides a 10 year warranty on the PowerCell 10.

The battery is compatible with the SunMax 400 solar panel and can be stacked in multiples for larger storage needs.
